Dear SACC Regional Chamber,
Once again, Chalmers University of Technology has turned to the SACC network for help in locating companies interested in hosting a bright engineering intern starting in June 2012. Let's take this opportunity to promote Swedish ingenuity!

Since 1963, **Chalmers University of Technology** has provided various U.S. companies with students who are eager to share their expertise while gaining international experience as interns. The school conducts research and educates students within fields such as:

Architecture & Engineering, Biotechnology, Chemical Engineering, Civil Engineering, Engineering Mathematics, Engineering Physics, Industrial Design Engineering, Industrial Engineering & Management, Mechanical Engineering, Product Development and Software Engineering.

The partnership with Chalmers offers SACC-members access to a number of well-qualified interns, who have completed at least three years of a five-year master's program, corresponding to a B.Sc.

What does your Chamber receive?

By promoting this concept to your local companies, your Chamber receives

- a membership service to offer current members
- an excellent opportunity to contact potential new members
- a chance to remind current and potential members about your Chamber's services and events
- 10% commission on visa service fees paid by your members

By hosting an intern from Chalmers, U.S. companies receive

- access to Swedish technology and innovation
- a qualified intern eager to contribute the latest in his or her field
- J-1 visa application support from Swedish-American Chambers of Commerce-USA
- 20% discount on the visa fee.

This partnership is a great way for your members to train Swedish students who represent the engine of future export between our two countries.

The following files may be used to promote the Chalmers project to your members. If you prefer the Word and Excel versions of these documents, please send us an email.

1. [Sign up for a bright engineering intern](#) - presents Chalmers School of Technology, program costs and benefits, and instructions on how to join the program
2. [Students & Program Information](#) - students present their area of interest and desired duration of training
3. [Zip-file with all Chalmers Resumes](#) - request it by emailing sacctraineeprogram@sacc-usa.org

To request the zip file with all Chalmers Resumes to send to your members and for more info about the project, please email sacctraineeprogram@sacc-usa.org.

Best Regards,
Cecilia Kullman
Director of Trainee Program
Swedish-American Chambers of Commerce - USA
